Purpose
The purpose of this Pilot/Feasibility grant is to promote research in diabetes by new and established investigators at the University of Michigan.

Eligibility
- Full-time instructional, research or clinical track faculty at the University of Michigan
- Basic and clinical diabetes research
- New investigators beginning careers in diabetes-related research, established investigators who have not previously worked in diabetes-related research but wish to focus their expertise on diabetes, or established diabetes investigators who propose innovative research in diabetes that represents a clear departure from their ongoing research
- Proposals aimed at advancing Type 1 Diabetes Mellitus research will also be eligible for the 2019-20 William and Dolores Brehm Research Award in Type 1 Diabetes Mellitus.

Funding
Up to $50,000

Applications
- Proposals should be for one year of support, with total requested funding up to $50,000 direct costs
- Application Deadline: Monday, August 5, 2019 (11:59 PM)
- Anticipated Funding Date: December 1, 2019

Apply through the Competition Space website
